EDUCATION

COMPUTER SCIENCE STUDENT

Bachelor of computer science in software development

Namibia University of Science and Technology | 2023 - current

LEARNER

Hage G.Geingob High School | 2018 - 2022

EXPERIENCE

PROJECTS IN SCHOOL

NUST 2023-Current

I have teamed up with a couple of students in various projects. I have created snake games in java, management systems in java,graphically interactive interfaces application,Database management systems, web application development and other projects in data structures and algorithms and also systems using ballerina language.

DX TRADING PTY

Windhoek 2023-2024

I served as a Computer Hardware Specialist and Sales Representative, gaining valuable insights into the complexities of processing, hardware components, and systems, both for Windows and Mac platforms. My role involved understanding system functionalities, customization options, identifying weaknesses, and providing comprehensive support to customers. I later went to go develop their website.
